Community and Classroom Rules

Updated 12 October 2026

1 Scope

These rules apply to students, teachers, referral members and everyone using lessons, chats and groups on 2Be.Vip, to maintain a safe and respectful learning environment. The A1 package includes 18 months of digital access and 20 live lessons over 4 weeks.

2 Respect

Harassment, bullying, threats, hate speech, discrimination, insults, swearing, racist language and sexual comments are prohibited. Respect teachers and students, including differences in learning pace.

3 No disruption

Flooding chats, spam, repeated interruptions and promotion of unrelated services or products within lessons and groups are prohibited. Follow the teacher’s instructions regarding audio, cameras and speaking turns.

4 Academic integrity

Cheating, sharing answers, test answer keys or internal materials, impersonation and using another person’s account are prohibited.

5 Privacy and safety

Do not publish another person’s information or private messages without consent. Do not request passwords, verification codes or payment details. Report suspicious behaviour to support.

6 Recordings and content

Recording, copying, publishing or redistributing lessons without written permission is prohibited. Do not upload protected material you have no right to use. Respect the rights of 2Be.Vip, content providers, teachers and students.

7 Live lesson etiquette

Join at the confirmed lesson time. The teacher may refuse late entry depending on the circumstances. Use appropriate language and behaviour, and mute your microphone when not speaking if the teacher asks you to do so. If you experience a technical problem, use the chat or contact support.

8 Enforcement and reporting

Violations may lead to a warning, removal from a session, temporary restriction, account suspension or termination. No contractual refund is offered for termination due to a breach of these rules, without affecting rights that cannot lawfully be excluded. To report a violation, contact support@2be.vip with the date, time, username and relevant details or screenshots.
